

Community Events

Welcome to our Calendar of Events. We're excited to offer a variety of opportunities for you to learn more about the GET Program. The Calendar of Events will provide you a list of scheduled events and meetings where GET staff are available to talk with you about how GET works, how its value is guaranteed, and how families of young children can afford college in future years. Events will be added throughout the enrollment period.

- **Presentations:** These are FREE information meetings scheduled in various communities throughout the state. Each event will include an overview presentation followed by a question and answer period. A GET representative will be available to help families with individual questions. Please join us! Space may be limited so RSVP early - Email GETOutreach@hecb.wa.gov or call 1.800.955.2318.
- **Trade shows, Fairs, Parent and Kids Events:** We frequently host a booth at a community event or a trade show attended by parents or grandparents, school district personnel and employers. Stop by and see us. A GET Representative is on hand with answers to your questions and brochures to take home about GET.
- **Special Arrangements:** Schools, companies, and other public and private organizations can help their employees learn about saving for college by offering payroll deduction. With special arrangements, we can coordinate a visit to your worksite to bring the information where and when it's convenient for you. A GET Representative can provide a short presentation, which includes an overview of the program and a question and answer period. This can be offered during a lunch period called "Lunch and Learn". Other options are to organize an Open House – an informal, one-on-one interaction. Email us at GETOutreach@hecb.wa.gov with your information and request.

If you would have suggestions for future events or would like to discuss a special arrangement presentation, please email Jacquelyne Molique Ferrado, Community Outreach Manager, at GETOutreach@hecb.wa.gov.

City	Event Type	Location	Date/Time	Audience
